

NexGeneration Notification*

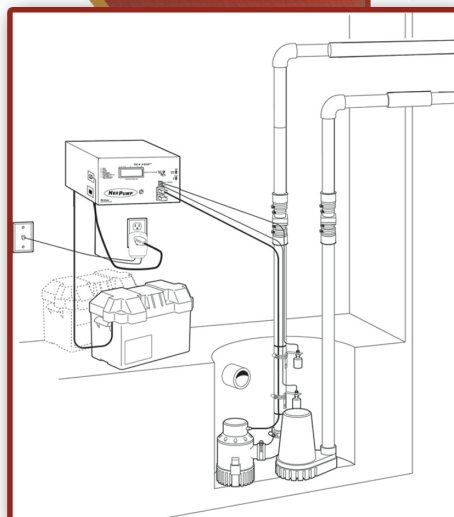

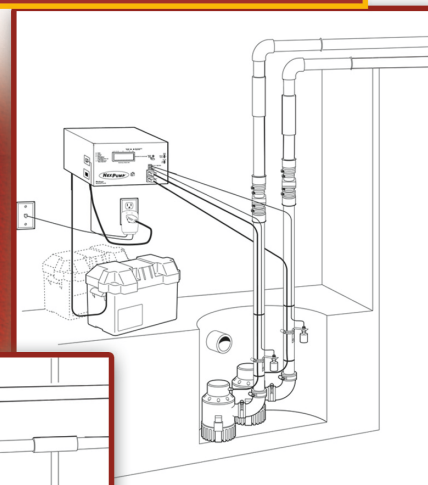

The NexPump "Ai Notification System" is a fully integrated notification system capable of relaying 38 critical points monitored by your NexPump unit. From AC power loss to sensor, pump, battery or plumbing issues you will be informed. Notification is made by phone calls and/or emails (or text). Two (2) phone numbers and four (4) email addresses are available for the NexPump alerts. With the latest NexPump Internet Versions you are able to use a web browser to view your NexPump remotely for status updates, configuration, and more. NexGeneration Technology from NexPump will give you true peace of mind!

Easy Installation

The compact pumps fit in most standard sump pump pits and allow for stacking on top of one another in narrow pits. Dual pump systems can be used as primary or backup systems allowing for versatility. Unit includes dual independent sensors that are adjustable for highest reliability.

Dual Pump NexPump System

Installed as a primary System

Single Pump NexPump System

Installed as a backup System

Why NexPump?

NexPump is the creator and the leader of the latest technology in the sump pump industry. The NexPump Series has been tested and proven effective in extreme conditions when needed most. With NexPump, you no longer have to worry about your basement flooding. The NexPump is the world's only internet sump pump operating 24/7 to protect your basement. It also runs Self-Tests (test pumps, battery, phone line, etc.), has *Notification (phone and/or email) and uses its Artificial Intelligence to help protect your investment. Whether vacationing or in the living room, homeowners will have real peace of mind with the NexPump. We are certain you will be pleased with the outstanding quality, reliability and performance of our products.

Here are some of the outstanding stats:

Over 500,000 - Pump hours tracked
Over 9,125,000 - Self-Tests performed
Over 11,000 - Notifications sent
Over 109,500,00 - Power up hours

**The notification feature is an option. Notification options include: phone (AN), wired internet (ANi), wireless internet (ANiw), email only wired internet (ENi), or email only wireless internet (ENiw).*

**AN, ANi, and ANiw include phone and email alerts. ENi, ENiw models include email only alerts.*
